

World Environment Day 2021 Online Quiz

Department of Botany, St. Joseph's Degree College, Kurnool has celebrated World Environmental Day 2021 through online mode even this year by conducting an online quiz based on the theme of WED 2021 because we are still striving to fight the virus.

- ❖ This year's theme for WED is 'Ecosystem Restoration'.
- ❖ Ecosystem restoration means preventing, halting, and reversing the damage caused by human activities and finally healing our nature.
- ❖ This WED will see the launch of the UN Decade on Ecosystem Restoration. (2021-2030), a global mission to revive billions of hectares, from forests to farmlands, from the top of mountains to the depth of the sea. The emergence of COVID19 has also shown just how disastrous the consequences of ecosystem loss can be.
- ❖ Ecosystem restoration means assisting in the recovery of ecosystems that have been degraded or destroyed in the past years, as well as conserving the ecosystems that are still intact. Healthier ecosystems, with richer biodiversity, yield greater benefits, such as more fertile soils, bigger yields of timber and fish, and larger stores of greenhouse.
- ❖ The questions of online quiz were based on ecosystem restoration and Covid 19 related fungal diseases which are affecting recovered patients of Covid 19.

❖ OBJECTIVES:

- The main objective of this year theme is "ECOSYSTEM RESTORATION" to focus on recovering our ecosystems
- This year the main objective is to heal what we have broken

❖ DURATION

The quiz started on 5th June and ended on 8th June.
