Report on the Workshop-Democratizing AI Resources

- A two-day workshop on “**Democratizing AI Resources**” was successfully organized by the **Entrepreneurship Development Cell (EDC)** in collaboration with the **Institution Innovation Council (IIC)** at **St. Joseph's Degree College, Kurnool**, on **2nd and 3rd February**.
- The workshop aimed to create awareness among students about the growing importance of Artificial Intelligence (AI) in education, entrepreneurship, and the present market, and to provide hands-on exposure to various AI-based tools and platforms.

Day 1: Workshop Sessions (2nd February)

The workshop commenced with an introductory session highlighting the relevance of AI in the current digital era. The Organising Committee invited **Dr. C. S. Sreenivasa Rao, Head of the Department of Zoology**, as the resource person for the workshop

- He delivered an insightful session on the **importance of Artificial Intelligence in the present market scenario**. He explained how AI is transforming industries, education, and entrepreneurship by improving efficiency, creativity, and decision-making.

- He introduced students to **Open Educational Resources (OERs)** such as **e-PG Pathshala** and **e-Gyankosh**, emphasizing their role in self-learning and higher education.
- He demonstrated the use of **AI tools like ChatGPT** for content creation, problem-solving, and academic support.
- He explained the concept of **prompt engineering**, highlighting how effective prompts can generate accurate and meaningful AI outputs.
- He also showcased AI-based tools for **logo and poster generation**, and demonstrated **PPT generation using the Gamma AI tool**, which attracted significant interest among student.
- The first day concluded with an interactive discussion, during which students actively clarified their doubts and shared their learning experiences.

Day 2: Competition on AI Tools (3rd February)

On **3rd February**, a **competition on AI tools** was organized as a continuation of the workshop.

- Students participated enthusiastically and demonstrated their creativity and innovation.
- They presented **business models** supported by **AI-generated logos, websites, and short promotional videos**.
- The competition provided students with a platform to apply the knowledge gained during the workshop in a practical and entrepreneurial context.
- The judges appreciated the originality, technical skills, and confidence displayed by the participants.

Conclusion

The workshop successfully achieved its objective of **democratizing access to AI resources** and empowering students with practical AI skills. It enhanced students' understanding of AI applications in education, entrepreneurship, and digital content creation. The sessions were informative, interactive, and highly relevant to the present market needs.

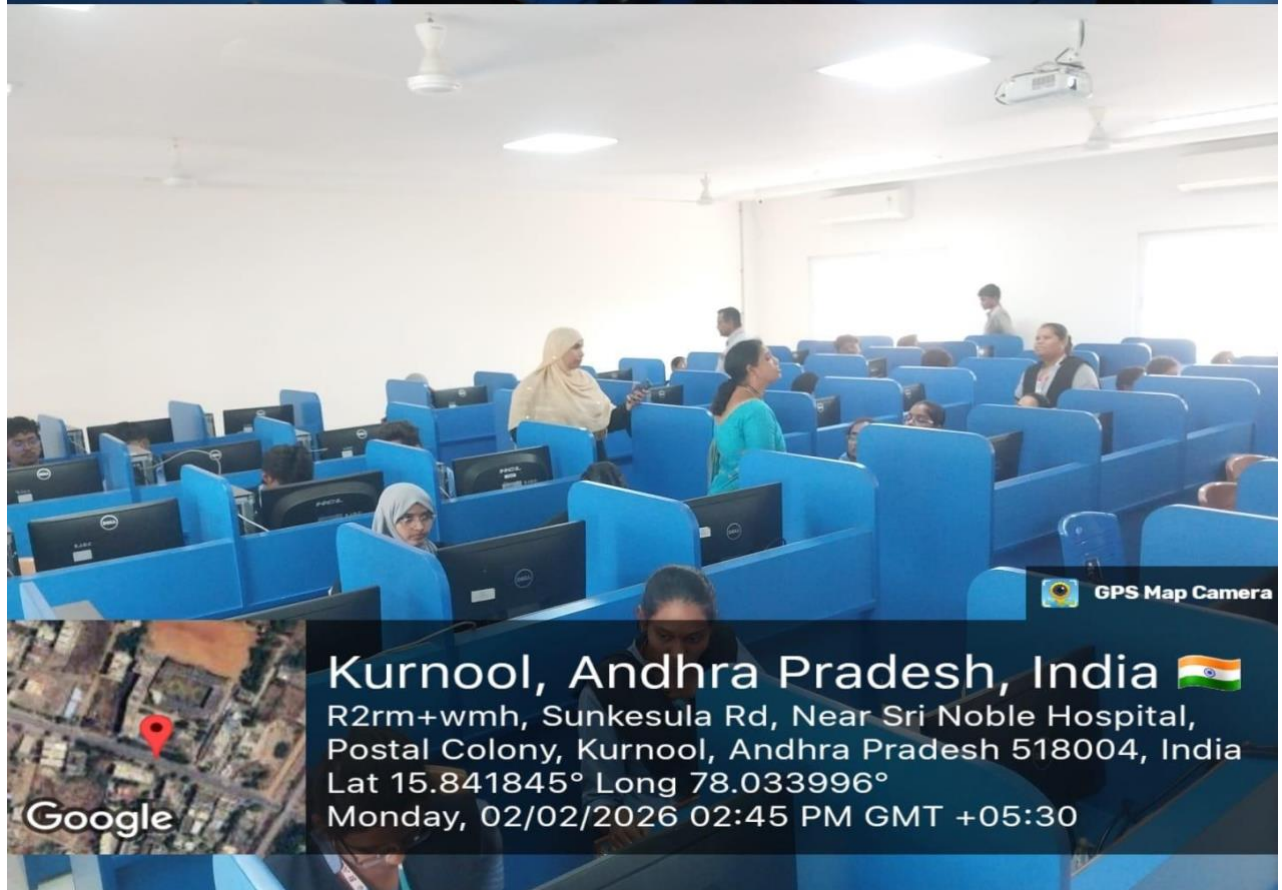

Objectives of the Workshop

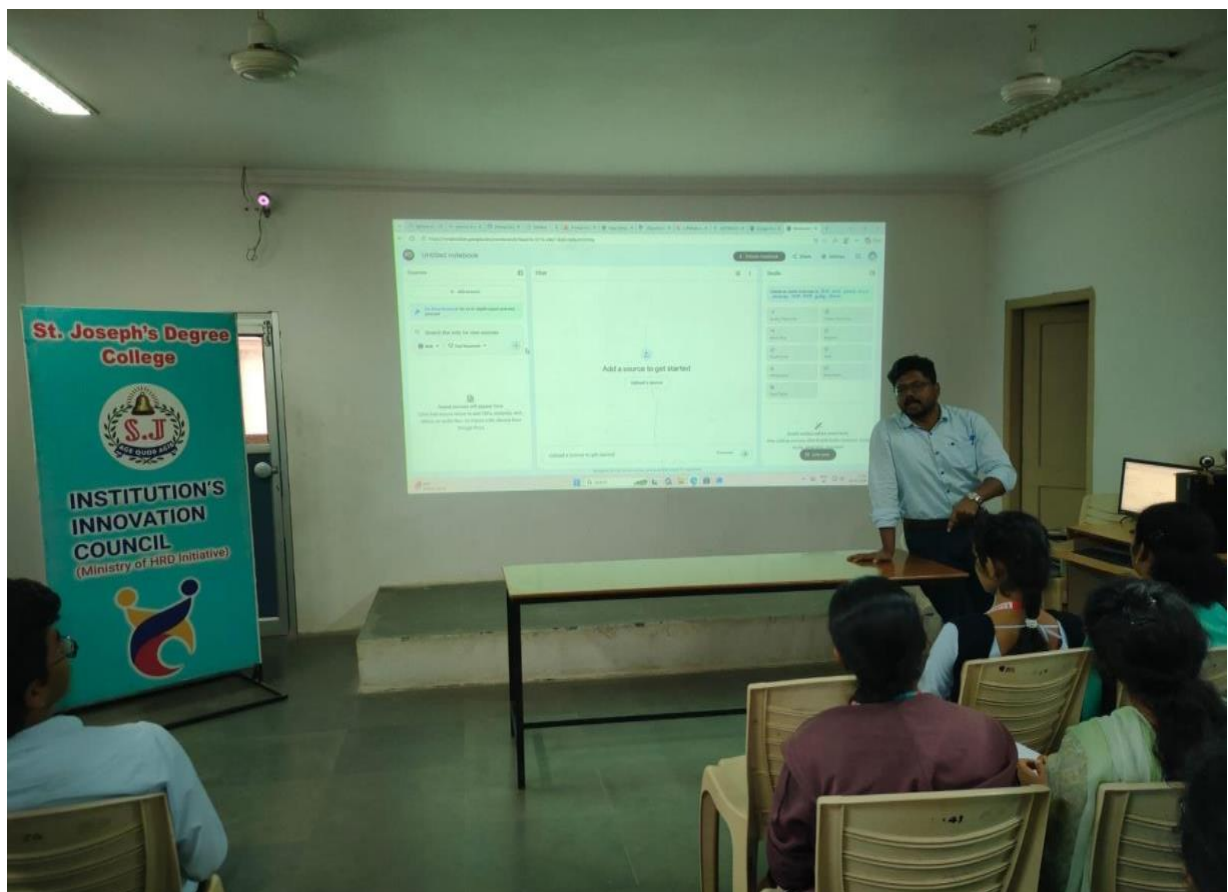

- To democratize access to Artificial Intelligence (AI) tools and resources for students from diverse academic backgrounds.
- To equip students with practical, hands-on AI skills relevant to current industry and market demands.
- To enhance students' understanding of real-world AI applications in education, entrepreneurship, and digital content creation.
- To create an interactive learning environment that encourages exploration, innovation, and problem-solving using AI technologies.
- To prepare students for emerging career opportunities by aligning AI learning with present and future market needs.

Outcomes of the Workshop

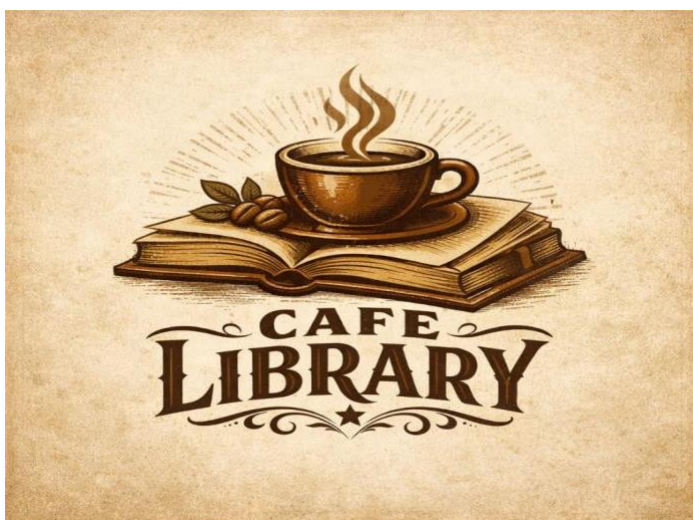

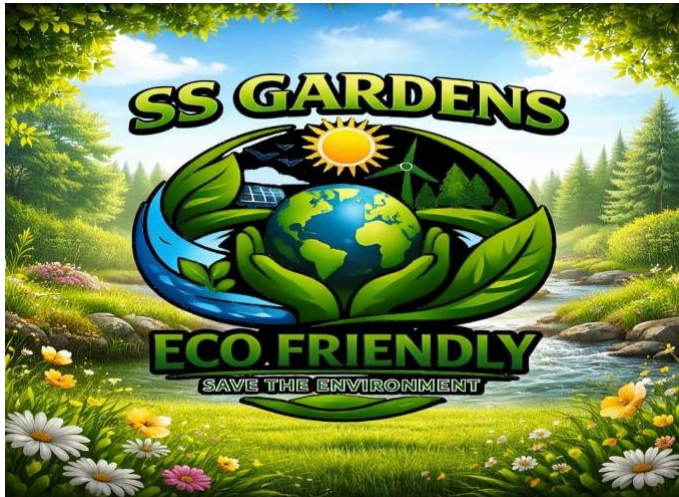

- Students gained practical exposure to AI tools and applications, increasing their confidence in using AI for academic and professional purposes.
- Participants developed a clearer understanding of how AI can be effectively applied in education, business ventures, and digital content creation.
- The workshop empowered students with industry-relevant skills, enhancing their employability and entrepreneurial readiness.
- Interactive sessions improved student engagement, critical thinking, and hands-on learning experiences.
- Overall awareness and accessibility of AI technologies among students were significantly enhanced, supporting inclusive and skill-based learning.

Students Participated: 50
